## EDUCATION

---

### 3RI Technologies

Pune, India

STEP in MERN Stack - React Certification

July 2022 - December 2023

*Courses: Operating Systems, Data Structures, JavaScript Algorithms, Responsive Web Design, Bash Scripting, Databases*

## SKILLS SUMMARY

---

- **Languages:** JavaScript, SQL, Bash, HTML5, CSS3, Sass
- **Frameworks:** ReactJS, NodeJS, ExpressJS, Tailwind, Bootstrap
- **Libraries:** Redux, p5.js, D3.js
- **Tools:** GIT, Github, npm, nodemon, MongoDB, PostgreSQL, MySQL, Vite
- **Soft Skills:** Leadership, Writing, Time Management

## PROJECTS

---

- **Hear Hear! Music Player:** Source code
  - The Hear, Hear! music player is a dynamic web platform for music discovery and listening.
  - **Tech Stack:** HTML, Tailwind.css, Javascript, React, Axios, Vite, Node.js.
  - Features include a music player, related songs, and songs by a particular artist.
  - Leveraged skills in API integration, database management, and full-stack web development to create a responsive and user-friendly interface.
- **Tic-Tac-Toe Web Game:** Source code
  - A fun and interactive Tic-Tac-Toe game featuring an appealing and user-friendly interface to enjoy the classic game with a modern twist.
  - **Tech Stack:** HTML, CSS, Javascript, React.js.
  - Utilized skills in Javascript, HTML, and CSS to create game logic and implement user interaction.
  - Project showcases the ability to build dynamic web applications and bring traditional games to life in a digital format.
- **SQL Data Visualization Dashboard:** Source code
  - A data visualization web app that extracts and cleans data from a SQL database to generate insights.
  - **Tech Stack:** MySQL, Tableau, SQL.
  - Wrote SQL queries to manipulate data to arrive at compelling data-driven information.
  - Project communicates insights through Tableau visualizations.
- **Calculator App:** Source code
  - A feature-rich, web-based calculator app to enable mathematical functions through a user-friendly interface.
  - **Tech Stack:** HTML, CSS, Javascript, React.js.
  - Feature-rich calculator built using JavaScript performs basic arithmetic operations of addition, subtraction, multiplication, and division.
  - Employs dual display; one for inputting numbers for new calculations and the other for displaying previous calculations.

## CERTIFICATIONS

---

- freeCodeCamp Org. certified in JavaScript Algorithms & Data Structures - December 2022
- freeCodeCamp Org. certified in Responsive Web Design - June 2022
- freeCodeCamp Org. certification in Relational Database (Beta) - In Progress

## VOLUNTEER EXPERIENCE

---

- **Winner - Student Journalism at Hanzehogeschool Groningen**  
*Organized interviews and created video journals, reaching 1000+ views on YouTube.*

Groningen, Holland  
Jan. 2016 - Jun. 2016
- **Lead Volunteer at Asare - A Home for the Mentally Challenged**  
*Conducted classes of vocational training and speech therapy.*

Manipal, India  
Mar. 2015 - Present
